The Western Exploration company closed a mining deal in this city yes-terday in which upward of \$2,000,000 Balaklala property in Shasta county, California, to the White Knob Copper company, that has recently been op- with the work.

company, that has recently been operating extensively at Mackay, Idaho, but which closed down permanently there last month. The company was represented in the deal by Clarence K. McCornick of Salt Lake.

This deal has been under way for some time past. Four years ago Walter Z. Filer and W. F. Snyder, representing the Western Exploration company, purchased a half interest in the der, who is the president of the West rn Exploration company, together the Frank B. Huhl and George A saird, the last named the executor on the will of P. L. Kimberly, went to California, took up the option and losed the deal for the second half of the Balaklala. The purchase was made from C. A. Malm and Sig Wie

Sunday morning Messrs. Snyder, Huhl and Baird returned to Salt Lake from California, and yesterday they closed the deal for the sale of the entire Balaklala property to the White Knob Copper company through Clarence K. McCornick, the representative of the esastern capitalist who had such an unfortunate experience in Mesker. The negotiations for this deal were on between President Snyder and Mr. McCornick three weeks ago. The int paid for the Balaklala is not

icially given out, but it is known be upward of \$2,000,000. The Balaklala is located in Shasta dunty, California, in the same min-al belt as the Mammoth, that was irchased by the United States Min-g company. It is also in the same that the Mountain Copper property, at has been turning out 800 tons a by for the last eight or ten years, consists of seventy-four patented consists of seventy-four patented laims extending three miles on the issure vein in the great copper zone. is looked upon by well informed men as the largest unequipped property in the west. He will remain in this city till the latter part of the week. He will then return to the Balaklala and resume the management of the property. He will put on a larger force of men and lay the foundation for great development.

"The Beck Tunnel is developing a great body of porphyry," Mr. Cates sadd. "It is now in 860 feet and all the way in mineralized ground showing good values. The other three tunnels, the Ben Hur No. 1, the Ben Hur No. 2 and the Metropolitan are started. They are now in twenty-five or thirty feet and are going ahead nicely.

"Railway Superintendent H. W. Henderson is in the field with his outfit laying out the line for the railfoad and the line will be constructed as fast as conditions will permit. There is a force of twelve men at work now on the line, and more will be put to work as inceeded.

Total sales for the day, 862,000 promptly with the date for disbursement of July interest and dividends. It is not impossible that it was designed to impress this suggestion on the speculative sentiment. The apparently eager demand had mostly expended itself by the end of the first hour, and the bulk of the business for the whole day was done in that end and the final hour. This strengthend and the final hour. This strengthened the impression that the movement was more due to a continuance of the operations designed to improve sentiment than the actual public demand for investment.
